Once again the Tabb Theatre proves its progressive policy by announcing the booking of "Winners of the West," the first continued Innings feature ever offered the public taken from American history. "Winners of the West" is said to be a radical departure from the old type of "shoot 'em up" western serials, which have in part been responsible for some of the present day censorship agitation against school children attending such shows. While Frisch, 3b. we feel it is no worse for a child to Young, rf. see a picture in any form which is Kelley, 1b. taken from novels and books than it E. Meusel, If. is to read the novel or book itself, Rawlings, 2b. vet the fact that American history Snyder, c. is now to be offered our children in Nehf, p. serial form will no doubt meet with the hearty approval of not only the parents and school teachers, but the public in general, and the Tabb Theatre's announcement that it will offer October 21 the first chapter of ken from American history, will no doubt prove a most timely booking. To make this a double event for every child in Mt. Sterling, Mr. Small announces in The Advocate that the Tabb Theatre will give \$25 in gold to the school child writing the best story on the "Winners of the West," the new great American history continued feature. Here is a chance that no school child can afford to overlook. For full particulars relative to this cash prize see ad in this issue of The Advocate.

THOROUGHBRED INTERESTS ATTACKED

Helm Bruce, Former Attorney for St. Louis Bucket Shop Syndicate Seeks to Destroy Racing

REPEAL OF THE PRESENT LAW MEANS THE RETURN OF THE BANISHED BOOK MAKERS TO KENTUCKY

The Kentucky Jockey Club Pays Over \$300,000 Yearly In Taxes Into the State Treasury.

(The Thoroughbred Record.)

Kentucky is the home of the thoroughbred. It is the nursery of the Anest breed of horses the world hes produced. An infusion of thoroughbred blood enriches every other strain and gives quality, speed and courage to the colder breeds. Hundreds of thousands of acres are devoted to the raising of thoroughbreds in this State, and millions of dollars are invested in the industry.

At the coming session of the Legislature an organized effort will be that is, in our opinion, infinitely the made to destroy the thoroughbred interest, lay waste the fertile pastures, greater evil, which is rampant in his now valued at from \$500 to \$1,000 an acre, upon which they graze and reduce the peerless Man O'War, for whom \$500,000 has been refused, to the worth of a plow horse.

Under the old book-making system which Mr. Bruce sought to perpetuate for his cients, the State did not receive a dollar; under the present law the Kentucky Jockey Club pays yearly into the State Treasury over \$300,000. If Mr. Bruce succeeds in destroying the thoroughbred interest this immense sum will be entirely lost to the State and the book-makers will return to prey on the public.

The leader of this destructive crusade, falsely put forth as a moral issue, is Helm Bruce, a Louisville lawyer, who, nursing a personal grievance, September 17, he says: and in grateful remembrance of his former race track clients, Cella, Tilles and Adler, the St. Louis bucket shop gamblers, seeks to prohibit all racing in Kentucky. When the Racing Commission was created by an act of the profit of two or three million of dol-Legislature and the turf in this State was taken out of the hands of the book-makers who had dishonored a royal sport, Helm Bruce, took a fee from this syndicate of bucket shop owners and sought to have the law deciared unconstitutional. He was defeated in his selfish purpose and now that the scandal breeding book-maker has been driven out, and the turi is prospering under the pari-mutuel system, with the leading horsemen of Kentucky, selected by the Governor, giving their time to the enforcement rate of the law, Mr. Bruce seeks to destroy the entire turf structure and carry with it the whole thoroughbred interests of Kentucky.

Desha Breckenridge, editor of the Lexington Herald, has defended racing, as now conducted under the State Commission, and in a series of frank and forceful editorials he has exposed the inconsistency of Helm Bruce, once an attorney for the book-makers, and now advocating the destruction of the pari-mutuels which would open the way for the return

of Mr. Bruce's former clients to Kentucky.

interest in the following statement to Mr. Breckenridge:

"A number of statements are made as to my knowing that certain alleged conditions, in connection with racing, former by existed, such as that race tracks were controlled by bookmakers, and that bookmakers retained twenty to thirty per cent, and that all sorts of rascalities were committed under this system. The fact is I know none of these things.

It is said that I know that Cella, Tilles, and Adler, of St. Louis, owned Latonia and Douglas Park, and it is said they ran bucket shops and race tracks in various sections of the country. I recall that Cella had an interest in the Douglas Park of the root, I do not know; and whether or not they ran bucket shops in other parts of the country, I do not know. It is said that I know these things because I was an attorney in a suit instituted against the State Racing Commission seeking to thave the act creating that Commission declared unconstitutional. It is entirely true that I was an attorney for the Douglas Park Jockey Club in a suit brought to test the constitutionality of that act, but it is not at all true that I learned in that case, or otherwise, any of the facts stated in the editorial as to gambling conditions on the race tracks."

Mr. Breckenridge makes the fol-

race tracks in various sections of the country, controled Latonia and Douglas Park; that there was a syndicate a deplorable condition; that the meetings were long, and under the syndicate system of bookmaking every sort of the State Racing Commission declared rascality was committed.

Mr. Bruce states: "I knew none

of these things." "We avow that all states made by us are true; that all intelligent men connected with racing or interested in racing know them to be true; that the facts were published in emission were alleged and not denied. But we accept at its face value Mr. Bruce's statement: "I know none of these things."

"Mr. Bruce does recall that Cella had an interest in the Douglas Park Jockey Club. It is interesting to know that this much of what was general knowledge percolated through the atphere of sweat innocence that sur-ided Mr. Bruce. If he had then ad the slightest interest in the preseron of racing, either as a sport or of the courts of the State." an aid to the breeding of horses or as a destructive agency of all that is od and noble, it seems to our mundane intelligence he would have in-formed himself as to the controlling factors in racing and certainly as to the personnel of his clients.

It has been a long time since the State Racing Commission was created and the effort made by the owners of uglas Park and Latonia-Cella, Tilles and Adler—to have that act declarunconstitutional. Mr. Bruce makes a very plausible statement of the basis

Mr. Bruce pleads ignorance of the | The act creating the State Racing character of his clients or their selfish Commission was drawn as a result of a meeting held in our office in the old Herald building, and as we recall attended by Thos. C. McDowell, Catesby Woodford, Johnson N. Camden, Charles McMeekin, Jouett Shouse, then editor of the Kentucky Farmer and Breeder, and Hal P. Headley. No man cornected with Churchill Downs was invited to the meeting nor advised of its purpose. John T. Shelby and John R. Allen were engaged to draw the act which was supported by all the breeders of the State, and passed by a practically unanimous vote of both bouses of the Legislature.

> The purpose of the act was to prevent a continuation of such conditions as were incident to the ownership of race tracks by Mr. Bruce's clients. It

Regardless of the interests of the State Racing Commission so that Park and revealed their purpose to tucky as they ran them in Missourihave conflicting dates with Churchill books on all the tracks controlled by Downs and to conduct long meetings, them; that racing in Kentucky was in as they did in Missouri. Mr. Bruce apparently attempts to put the basis of the suit in which he tried to have unconstitutional on the ground that the State Racing Commission was created to kill Douglas Park.

But Cella, Tilles and Adler were not satisfied with this provision. They wanted the whole act declared unconstitutional, for that act-though it in his present efforts. may not be known to Mr. Bruce, who knows so little, as revealed in his com-

We do not say that Mr. Bruce knows it, because after his statement we fear to state that he knows even the most widely known fact, but ac cording to the grand jury of Jefferson County it is a fact "that a vast number of handbooks are being operated in the city of Louisville.

We, have not heard of any movemen; by Mr. Bruce to stop these hand books If Mr. Bruce had succeeded in the suit to declare unconstitutional the act creating the State Racing Commission there would be books on the race tracks as well as handbooks in the city. The law now prohibits handbooks in the city. But they exist in the city of Louisville, Yet Mr. Bruce starts a campaign against "legalized betting" and so far as we know takes no action against the illegal betting own home town.

In the communication published this morning, Mr. Bruce says:

"I have never pretended to make any accurate statement of what are the total profits of the Jockey Club, because I do not know them.

with this statement:

"Pari-mutuel betting on the race tracks may be a safer form of betting bler-but I am not interested in protecting the gambler."

Who is it Mr. Bruce is interested in protecting? As a lawyer he was interested in forwarding the interests of Cella, Tilles and Adler, who, though of course he never knew it, conducted bucket-shops and syndicate books The present movement fathered by him will inure to the benefit of the bookmaker and handbook men, though equally of course he does not know this. As proven by the result in New York, the success of the movement he advocates will lead to a form of gambling that is most pernicious and as a rule crooked.

He did not ther attempt to have that section of the statutes repealed. The act creating the State Racing Commission was passed in 1906. The provision under which pari-mutuels are permitted wa passed in 1883, thirteen years before that. During those years the book makers operated as unmolested on the race tracks as they now operate in Louisville and will again operate on the race tracks if Mr. Bruce succeed

Thirty years ago the Mt. Sterling Advocate sent out its initial issue. and as for the reason of its appearance gievn by C. W. Harris and John H. Mason, owners and editors, was the need Mt. Sterling had for a third newspaper, the Sentinel-Democrat and the Mt. Sterling Gazette, then as now, being in existence. The editors announced The Advocate would be strictly a Democratic paper politically, and as such she has served to this good hour, and will continue to serve as long as the world stands should we continue as the editors. Never greater than the party, always supporting the nominees, believing our worst are better than our opponetns supporting the principles of the Republican party. It is measures and not men we stand for.

The editors of 1900 announced The Advocate would be a clean paper to be admitted into the homes where women and children read as well as do men, and to be this has been an ambition, and we are here to say The Advocate has ever been free from any utterance that could bring a blush to the cheek of the most modest woman.

Then, as this is a farmers section. The Advocate would look after and support all agricultural interests. Our files are evidences of the fact that this paper has been true to her constituency and for her boldness, her frankness and helpfulness to all things of worth The Advocate has been most generously supported, and we can of a truth proclaim she is read twice a week by more people than double that of our contemporaries. This we say as a matter of fact, and not from a boastful spirit.

When The Advocate was launched her equipment consisted of a small
